

Attention students who registered to take college classes semester 2 through ACM:

You probably are receiving information from ACM that includes placement testing, a request for transcript, a letter from the High School and access to ACM's student portal site.

Keep these letters! You do not need to do anything at this time.

NS Guidance Office will send out the requested school letters and student transcripts in January, 2012, once the ACM student list is finalized.

The access information to ACM's student portal allows students to check their grades, financial balances and receive correspondence from their ACM instructor.

Please contact the Guidance Office at 629-6651 ext. 2304 if you have any additional questions.
